

Dear Chair Powell and members of the FCC

The vote on relaxing media consolidation rules, scheduled for Monday, June 2, should be postponed until more public input is considered and certainly until after the text of any proposed resolution is made public.

Continued consolidation of the media in fewer hands, particularly the possibility that broadcast and print media in a single locality could fall under the same ownership, is a real threat to democratic governance. It must be reconsidered.

Thank you for considering my comments.

Sincerely,

Randy Croce
